Our preferred suppliers include:

We've been putting steel to good use
for more than 55 years now.

Culpan Industries started in 1969 as
R Culpan & Sons, a small metal business in Airport
West, Melbourne.

Over the years, the company shifted its focus to steel
sales, then structural steel and fabrication, before
entering sheet metal manufacturing with the launch
of the Stronghold steel storage brand.

In 2012, the acquisition of AMD Commercial Furniture
expanded the business to include commercial joinery,
prompting a move to our current purpose-built
facility in Campbellfield.

Stronghold and AMD collaborate to produce steel
products and commercial furniture for clients across
Australia and New Zealand.

In 2019, the Batteryhold division was created to
address a specific crucial market need.

What began as a small metal operation has grown
into a responsive manufacturer, that delivers
customised solutions across transport, education,
emergency services, corporate, recreation, and
infrastructure.
